LS² System Biology meeting
Emergent properties and
self-organisation across scales

15 - 16 November 2021

Schloss Münchenwiler

Summary

The [section Systems Biology of Life Sciences Switzerland](#) (LS²) is organizing the symposium **“Emergent properties and self-organisation across scales”**

This meeting brings together **systems biologists from all over Switzerland**.

Many processes in biology are self-organising and lead to emergent properties. They cannot be reduced to properties of the individual components involved and can cross multiple spatial and temporal scales. A concerted effort from scientists across different disciplines is needed to better understand the rules of emergence and self-organisation. The symposium will address self-organisation on the molecular/cellular level, development, multicellular microbial systems, organoids, and societies/landscapes.

By promoting dialogue and exchange of results and ideas, we hope to initiate collaborations that will help to address one of the grand challenges of current research in the life sciences. As evidenced by the very fast and positive responses we have received from all invited speakers, **the research community in systems biology in Switzerland is eager to meet again in person**, after more than 18 months without live gatherings. We are therefore confident that this symposium will prove a successful **networking platform for our community and a meeting point between industry representative and researchers**.

The symposium will take place at the beautiful location of [Schloss Münchenwiler](#). An apéro and subsequent dinner will be the social highlights of this event.

If the sanitary conditions do not allow for an in-person meeting, we plan to postpone it until 2022. In that case, any sponsorship agreements would be either carried over to the rescheduled date, or reimbursed in their totality.

Confirmed plenary speakers:

Sabine Hauert (University of Bristol, UK)

Jordi Garcia-Ojalvo (Pompeu Fabra University, Barcelona ES)

Jordi Bascompte (University of Zurich)

Adria LeBoeuf (University of Fribourg)

Prisca Liberali (FMI Basel)

Michel Milinkovitch (University of Geneva)

Sara Mitri (University of Lausanne)

Andy Oates (EPFL)

Lucas Pelkmans (University of Zurich)

Alex Persat (EPFL)

Olivier Pertz (University of Bern)

Barbara Treutlein (ETH Zurich)

With kind regards from the organizing committee,

Yolanda Schaerli (University of Lausanne)

Attila Becskei (University of Basel)

Eavan Dorcey (University of Lausanne)

Key facts

Date	15-16 November, 2021
Venue	Schloss Münchenwiler Münchenwiler/Villars les Moines, central Switzerland
Audience	<ul style="list-style-type: none">• Specialized audience from all Swiss Universities, ETHs, and the industry working in the field of Systems Biology• 60 - 70 participants (approx. 25% PIs or professionals)
Why getting involved?	<ul style="list-style-type: none">• The ONLY Swiss meeting in Systems Biology (and the first since 2018)• Highly enthusiastic and skilled audience• Intimate event, focused on personal interactions• You will have time for networking and informal one-to-one meetings with the participants• Audience from multidisciplinary fields
Sponsorship opportunities	<ul style="list-style-type: none">• Booth at the common areas of the venue• Sponsor talks• Merchandising material at the registration desk• More options and details: see below
Website	https://meetings.ls2.ch/systemsbiology2021

Sponsorship options

All prices listed excl. 7.7% VAT

1. Platinum Package **3000 CHF**

- Oral presentation during the meeting (10 min)
- Booth at the meeting site
- Logo displayed during poster session
- One merchandising item: lanyards, flyers, pens...
- One page in meeting booklet

This package is limited to two sponsors.

2. Gold Package **2500 CHF**

- Booth at the meeting site
- Logo displayed during poster session
- One merchandising item: lanyards, flyers, pens...
- Half page in meeting booklet

3. Silver Package **1000 CHF**

- Promotional roll-up or poster in conference room
- Logo displayed during poster session
- One merchandising item: lanyards, flyers, pens...
- Half page in meeting booklet

4. Bronze Package **750 CHF**

- Promotional roll-up or poster at registration desk
- One merchandising item: lanyards, flyers, pens...

5. Meeting bags **700 CHF**

- Limited to a single company or publisher

6. Flyers **500 CHF**

- or other merchandising item given at registration desk/meeting bag

7. Booklet **400 CHF**

- One page in conference booklet
- Half page in conference booklet

300 CHF

8. Poster Prize **300 CHF**

- Limited to three companies

Any other sponsorship offer is welcome to be discussed.

All packages include the logo on the meeting website, booklet and welcome words.

Sponsorship options of 2500 CHF or more include the invitation of two company representatives to the meeting. Costs for registration & catering during the conference will be covered for them. We, however, kindly ask the representatives to individually pay for their hotel overnight stay, if needed.

In case the representatives want to stay at the venue, please contact eavan.dorcey@unil.ch.

Please note, that this is a private booking and the cancellation conditions must be discussed with the hotel.

**We would be very happy to welcome you at the Systems Biology Meeting 2021!
With kind regards on behalf of the organizing committee**
