

CARDIOVASCULAR RESEARCH MEETING

14 & 15 January 2025

Institute of Tissue Medicine and Pathology (IGMP),
University of Bern

SPONSORSHIP BOOKLET

Cardio-vascular diseases are defined by the world health organization as “a group of disorders of the heart and blood vessels”, suggesting that strong interactions exist between the cardiac and vascular fields. That is why the working group of cardiovascular biology was founded by **clinicians and researchers** working in cardiology and in the vascular domain 20 years ago. This interaction is the specificity of our group, which is also supported by the Swiss Society of Cardiology (<http://www.swisscardio.ch>).

The focus of this meeting is:

- To provide an open forum for **cardio-vascular** scientists (basic researchers and clinicians)
- To promote and enhance education for young colleagues
- To intensify collaborations among researcher within Switzerland and with industry
- To provide an annual meeting platform for network programs

The meeting will take place at the Institute of [Tissue Medicine and Pathology \(IGMP\), University of Bern](#). An **apéro in a restaurant in Bern** will be the social highlight of this event after the scientific conference.

Key facts

Venue	Tissue Medicine and Pathology (IGMP), University of Bern
Audience	Specialized audience from all Swiss Universities, ETH and other institutes working in the Cardiovascular field. 70-100 participants (40% students, 40% postdocs, 20% PIs or clinicians)
Why getting involved?	The only Swiss meeting in basic research in Cardiology!
Sponsoring opportunities	Possibility for a booth and/or other sponsoring options, plus networking and informal one-to-one meetings with participants.
