
Swiss Physiology Meeting

September 03, 2026

The School of Engineering and Architecture of Fribourg (HEIA-FR), Edouard Gremaud Auditorium

- 08:45 – 09:20** **Registration & Welcome coffee**
- 09:20 – 09:25** **Welcome words from Thomas Lutz** (University of Zurich),
president of the LS² Section Physiology
- 09:25 – 10:10** **Keynote lecture I**
Susanna Zierler (Johannes Kepler Universität Linz, Austria)
“Channeling immunity – targeting ion channels to modulate immune system homeostasis”
- 10:10 – 10:40** **Young Investigator Award, Poster competition**
Flash talks from finalists (5 + 1 min)
- 10:40 – 11:15** **Coffee break & Industry Exhibition**
- 11:15 – 12:00** **Keynote lecture II**
Andreas Draguhn (Universität Heidelberg, Germany)
“Oscillating networks in the mammalian hippocampus – cellular mechanisms and their potential relevance”
- 12:00 – 13:00** **Lunch**
- 13:00 – 14:00** **Poster Session & Industry Exhibition**
- 14:00 – 15:15** **Young Investigator Award, Oral Communication**
Session-I: PhD students

15:15 – 15:35 **Coffee break & Industry Exhibition**

15:35 – 16:35 **Young Investigator Award, Oral Communication**

Session-II: Postdocs

16:35 – 17:05 **Coffee Break & Industry Exhibition**

Parallel Jury session for YIA

17:05 – 17:25 **LS² Physiology Section Meeting (open to all)**

17:25 – 17:35 **Award Ceremony: YIA Research Prize 2026 of the "Stiftung für Physiologie"**

Presented by: Ernst Niggli

17:35 – 17:40 **Closing remarks**

Haute école d'ingénierie et d'architecture Fribourg
Hochschule für Technik und Architektur Freiburg
