

CARDIOVASCULAR RESEARCH MEETING

15-16 March 2018

University of Fribourg, Campus de Péroilles

SPONSORSHIP BOOKLET

Summary

Cardio-vascular diseases are defined by the world health organization as “a group of disorders of the heart and blood vessels”, suggesting that strong interactions exist between the cardiac and vascular fields.

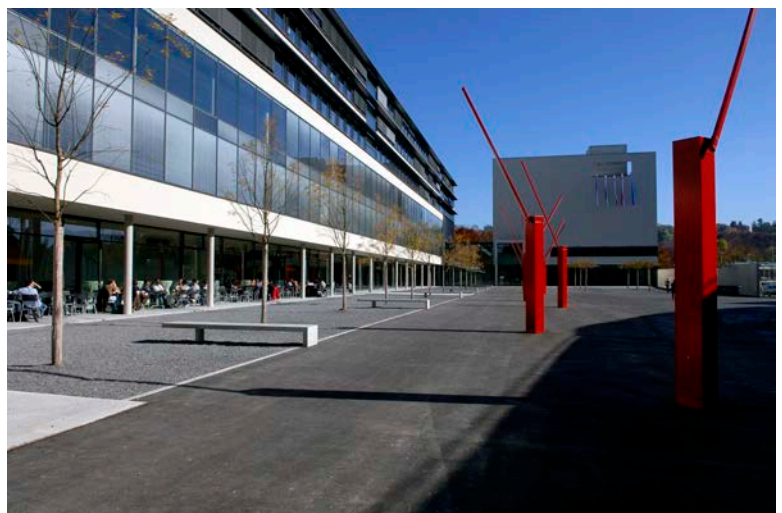

That is why the working group of cardiovascular biology was founded by clinicians and researchers working in cardiology and in the vascular domain 20 years ago. This interaction is the specificity of our group, which is also supported by the Swiss Society of Cardiology (<http://www.swisscardio.ch>).

The focus of this meeting is to:

- To provide an open forum for **cardio-vascular** scientists (basic researchers and clinicians)
- To promote and enhance education for young colleagues
- To intensify collaborations within Switzerland
- To provide an annual meeting platform for network programs

In 2018, it will be the first time that **we will organize this meeting as Cardiovascular Biology intersection of Life Sciences Switzerland (LS², <https://www.ls2.ch/sections/cardiovascular-biology>)** and we hope that **scientists from different fields will join us.**

The meeting will take place in the University of Fribourg on the Campus de Pérolles. A dinner in the Fribourg old town will be the social highlight of this event.

Campus Pérolles, University of Fribourg

Key facts

Venue	Fribourg University, Campus de Péroilles
Audience	Specialized audience from all Swiss Universities, ETHs working in the Cardiovascular field. 70-90 participants (40% students, 40% postdocs, 20% PIs or clinicians)
Why get involved?	The only Swiss meeting in basic research in Cardiology! Highly enthusiastic and skilled audience Intimate meeting, focus on personal interactions and favoring the first presentation (oral or poster) of young people.
Sponsoring opportunities	Possibility for a booth and other sponsoring options plus etworking and informal one-to-one meetings with the participants, see last page.
Website	meetings.ls2.ch/cardiovascular2018 (open from 1 December 2017)
Contact	Dr. Carolin von Schoultz Scientific Officer Life Sciences Switzerland Institute of Molecular Life Sciences Winterthurerstrasse 190 8057 Zürich mailto:carolin.vonschoultz@ls2.ch mobile: 076 264 68 91

We look forward to the meeting and to seeing you! Please don't hesitate to contact us if you have any additional questions.

***With kind regards
The Cardiovascular Biology committee***
